🚀 PROJECTS

Website

For New era research and development center I design website that used to get the information about internship students who want to apply in NERD center.

In Data structure Demographics of African countries

The program we coded in group is all about providing statistical information regarding GDP, life expectancy, population and area size of African countries found in the continent.
Our program allow users to search, sort, insert, delete the set of data anywhere in the list.

In computer network

The project is about the designing of network to the pension by using router, switch, firewall, wireless APs.

In JAVA

Online Unemployment Registration form
